99.1 Honeywell International Inc. slide deck dated October 13, 2016

SIGNATURE

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the Registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

Date: October 13, 2016 HONEYWELL INTERNATIONAL INC.

By: <u>/s/ Jeffrey N. Neuman</u> Jeffrey N. Neuman Vice President, Corporate Secretary and Deputy General Counsel

October 13, 2016 MAD MONEY BRIEFING

This report contains "forward-looking statements" within the meaning of Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of fact, that address activities, events or developments that we or our management intend, expect, project, believe or anticipate will or may occur in the future are forward-looking statements. Forward-looking statements are based on management's assumptions and assessments in light of past experience and trends, current economic and industry conditions, expected future developments and other relevant factors. They are not guarantees of future performance, and actual results, developments and business decisions may differ materially from those envisaged by our forward-looking statements. Our forward-looking statements are also subject to risks and uncertainties, which can affect our performance in both the near- and long-term. We identify the principal risks and uncertainties that affect our performance in our Form 10-K and other filings with the Securities and Exchange Commission. Information on our third quarter financial performance contained in this report is preliminary pending the issuance of our Form 10-Q for the period ending September 30, 2016.

Definition Of Core Organic

Throughout this presentation, core organic sales growth refers to reported sales growth less the impacts from foreign currency translation, M&A and raw materials pass-through pricing in the Resins & Chemicals business of PMT. The raw materials pricing impact is excluded in instances where raw materials costs are passed through to customers, which drives fluctuations in selling prices not tied to volume growth. A reconciliation of core organic sales growth to reported sales growth is provided in the Appendix.

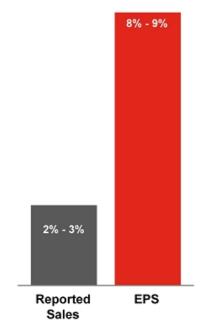

Earnings Per Share

As reported in our pre-earnings release issued on October 6, 2016, Honeywell's third-quarter reported EPS is expected to be approximately \$1.60. Excluding \$0.07 of benefits related to the early adoption of the Financial Accounting Standards Board's (FASB) Accounting Standards Update 2016-09 for stock compensation, third-quarter EPS is expected to be approximately \$1.67. All references to fourth-quarter EPS are for Honeywell's current estimated EPS and exclude any mark-to-market pension adjustment or expense arising from a potential bond refinancing transaction which may occur in the fourth quarter.
